- 900** Attendees at CCL annual conference
- 46** States represented at Congressional Education Day in D.C.
- 2016** The year in which Emmy Award winning TV documentary The Years of Living Dangerously featured CCL and GOP talking about carbon pricing
- 12** Countries in Africa that began new CCL groups starting from zero
- 3,438** Speaking and Tabling events in 2017

Energy Innovation and Carbon Dividend Act

FIRST BIPARTISAN BILL IN A DECADE

REVENUE NEUTRAL

Carbon Fee starts at \$15 per metric ton year 1 with \$10 increase yearly. The government will not keep any of the fees.

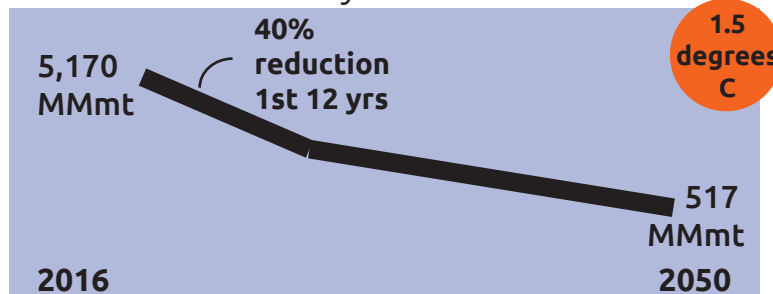

HOW DIVIDEND IS PAID TO YOU

Each year 100%¹ of the Carbon Fee collected at the point of fossil fuel extraction is paid back in equal shares to all US citizens.

¹ Less administrative costs

ONLY PLAN TO MEET IPCC TARGET ●●

90% GHG drawdown by 2050.

*MMmt = Million Metric Tons CO₂ equivalent = GHG = Greenhouse Gas
